

Northants Highways report for Evenley annual parish meeting April 2019

Helen Howard, community liaison officer

Helen has been supportive of our bid for traffic calming in Evenley and was pleased to advise that one chicane will be installed on Broad Lane (date to be advised) with funding coming from HS2's road safety fund.

Helen is also supporting us with protection of the Green and is looking into carrying out a feasibility study although she explained that this would have to come out of a different pot of money.

Northamptonshire County Council (NCC) has closed down Street Doctor and moved everything over to a new system called Fix My Street.

Fix My Street is simpler to use and mobile responsive and it allows photos to be attached to reports.

Any problems with the highway network should now be reported via <https://fixmystreet.northamptonshire.gov.uk>

Whether it's a pothole or a damaged verge, members of the public are able to submit a report.
